

Diabetes overview

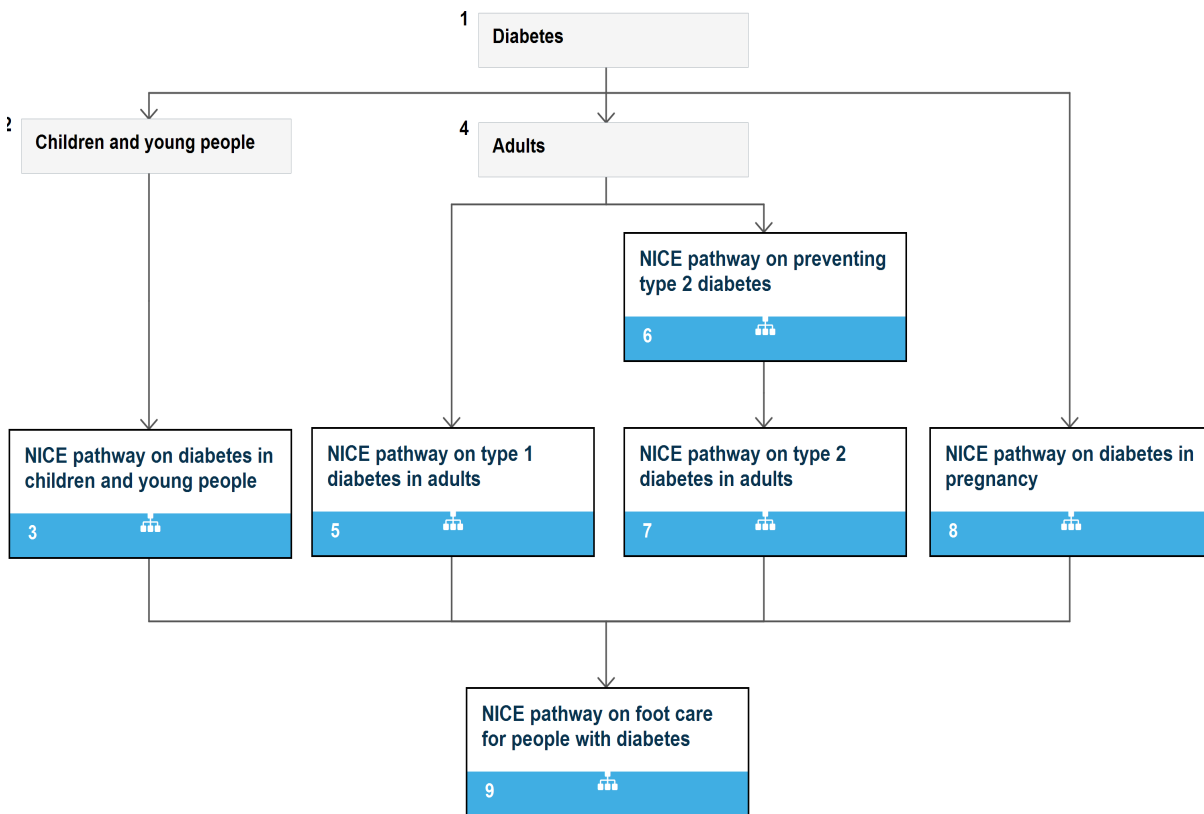

NICE Pathways bring together all NICE guidance, quality standards and other NICE information on a specific topic.

NICE Pathways are interactive and designed to be used online. They are updated regularly as new NICE guidance is published. To view the latest version of this pathway see:

<http://pathways.nice.org.uk/pathways/diabetes>

Pathway last updated: December 2015

This document contains a single pathway diagram and uses numbering to link the boxes to the associated recommendations.

1 Diabetes

No additional information

2 Children and young people

No additional information

3 NICE pathway on diabetes in children and young people

[See Diabetes in children and young people](#)

4 Adults

No additional information

5 NICE pathway on type 1 diabetes in adults

[See Type 1 diabetes in adults](#)

6 NICE pathway on preventing type 2 diabetes

[See Preventing type 2 diabetes](#)

7 NICE pathway on type 2 diabetes in adults

[See Type 2 diabetes in adults](#)

8 NICE pathway on diabetes in pregnancy

[See Diabetes in pregnancy](#)

9 NICE pathway on foot care for people with diabetes

[See Foot care for people with diabetes](#)

Your responsibility

The guidance in this pathway represents the view of NICE, which was arrived at after careful consideration of the evidence available. Those working in the NHS, local authorities, the wider public, voluntary and community sectors and the private sector should take it into account when carrying out their professional, managerial or voluntary duties. Implementation of this guidance is the responsibility of local commissioners and/or providers. Commissioners and providers are reminded that it is their responsibility to implement the guidance, in their local context, in light of their duties to avoid unlawful discrimination and to have regard to promoting equality of opportunity. Nothing in this guidance should be interpreted in a way which would be inconsistent with compliance with those duties.
